Capabilities and Solutions*

Process Control Product Lines

Honeywell... Field Measurement

Smart temperature and pressure transmitters (HART, Fieldbus, Analog), "smart" multivariable transmitters, electromagnetic flow meters.

Honeywell... Sensing and Control

Single and multiple loop programmable process controllers, digital programmers, digital and analog multipoint strip chart recorders, video recorders/controllers, digital programmable circular chart recorders and Trendview® smart recorder systems. Advanced loop and logic controllers in a modular design.

Turck/Interlink BT... Industrial Sensors, IS Barriers and Communication Solutions

Inductive and Capacitive Proximity Sensors, Quick disconnect cordsets, intrinsic safety barriers, flow switches, relays, logic controllers, din plugs for solenoids, custom designed switches, cylinder position switches, pressure switches, temperature switches, encoders, linear displacement transducers. Foundation™ Fieldbus, Device Net™, Profibus™, Control Net™ Interbus-S, SDS, Seriplex™, ASI, sensoplex, distributed I/O systems, quick disconnect cabling for Foundation™ Fieldbus, smart and passive junction boxes.

Pyromation... Thermocouple and RTD Assemblies

Temperature sensors and complete assemblies, elements, protection tubes, general purpose and high temperature assemblies, metal sheathed MgO insulated thermocouples, spring loaded assemblies, RTD assemblies and transmitters, insertion and hand held probes, CIP sanitary connected assemblies, well assemblies, thermocouple and thermocouple extension wire, thermocouple heads and blocks, plugs and jacks, fittings, insulators, bare wire.

Signet... Analytical and Flow Instrumentation

Conductivity, pH/ORP transmitters and controllers. Rotor-X, PVDF, wet-tap, hot-tap, and mini-flow sensors, Inteltek-Pro flow, and batch controllers, 2550 insertion magmeter, fittings, parts and accessories.

OPTO 22... Hardware and software solutions for automation applications

SNAP Ethernet I/O for monitoring data, acquire supervisory control data from HMI's, control equipment with PCs and PC-based automation software. Complete line of analog, digital and serial communications modules. OPTO certified training. Custom OPTO implementation and system design.

PGI... Flow Control Valves and Manifolds

Two, three, and five valve manifolds for utilization on Honeywell ST3000 series transmitters. Stainless, monel, or hastelloy.

Acromag... Signal Conditioning

Intellipak Signal conditioners, low cost loop-powered transmitters, flat pack din rail loop powered transmitters, AC and DC powered transmitters, alarm relays, isolators.

Control Air...

Precision air pressure regulators, I/P transducers, E/P transducers and frictionless diaphragm air cylinders.

Vaisala... Temperature and Humidity Measurement Instruments

Humidity instruments, Humicap® thin film capacitive solid state RH sensor, industrial temperature and humidity transmitters, wall and duct mounting. HVAC/EMCS transmitters, portable indicators and probes. Meteorological measurement systems.

O'Brien Corporation... Enclosures, Supports, Tubing Bundles

VIPAK® enclosure systems to protect process instruments and accessories from impact, corrosive environments, and temperature extremes. HEATPAK® partial enclosure system that provides freeze protection for the process wetted portions of transmitter installations. FLEXPAK reusable insulation for industrial equipment requiring periodic access and maintenance. HEATPAK II flexible insulation that protects the vital process-wetted parts of an instrument and manifold.

United Electric Controls... Oil & Gas Vertical Markets

Industrial Pressure Transmitters/Transducers with Operating Ranges from 0-50 thru 0-60,000 PSI. Submersible to 10,000 feet. Electromechanical Switches for Pressure and Temperature. Operating Ranges from 30"Hg to 9000 PSI.

Anderson Greenwood... Instrumentation Products

Instrument manifolds for pressure, level, and flow. Hand valves, block and bleed gauge valves, multi-port gauge valves, isolation manifolds, and primary isolation valves.

Flowline... Tank Level Automation Solutions

Ultrasonic, capacitance, tuning fork, and Buoyancy level transmitters and switches. Levelink relay controllers for tank automation management and telemetry. Continuous relay controllers. Panel meters. Alarm relay controllers. Smart track adjustable multipoint level switch.

Ann Arbor... Touch Screen Flat Panel Industrial Computer Systems

Flat panel industrial computer systems available with and without touch screens.

Fossil... Electronic Conductivity Probe Systems

Electronic Conductivity Probe Systems, originally sold as the "Yarway™ Aquarian" and Visual Level Gauge Products for high and low pressure Boiler Level Monitoring, Aquarian™ Feedwater Heater and TWIP applications

Burner Management / Combustion Control Product Lines

Honeywell

Honeywell... Burner and Boiler Controls Division

Fuel valves and actuators, limits and interlocks, firing rate controls, primary flame safeguard controls, microcomputer burner controls, test equipment, flame detectors and amplifiers, pilots/igniters, solid state ignition devices and transformers.

FORNEY

Forney... Environmental & Process Monitoring Analyzers & Instruments

A complete line of process, safety and compliance analyzers for flue gas and stack monitoring. Analyzers for detecting Mercury, SO₂, NO_x, CO, CO₂, and O₂. Instruments for monitoring Flow, Opacity/Dust, and Cross Duct CO. Continuous Emissions Monitoring Systems (CEMS) engineered to meet the customers needs.

IRIS

Iris... Flame Detection Systems

Combination UV/IR viewing head for all applications with auto or manual calibration. Digital/analog signal processor with digital and analog gain, digital set-point for "flame on/off", 24 Vdc powered.

MAXON

Maxon... Automatic Safety Valves

Automatic and manual reset fuel shut-off valves, UL, FM, CGA listed valves. Vent valves, cast iron or carbon steel bodies, packaged special service valves, modular special service valves, electric and pneumatic actuators.

ASCO

ASCO... General Controls Combustion Products

Solenoid gas and oil valves. Pilot gas shutoff, main gas shutoff (Direct acting and pilot operated), manual reset, hydramotor and vent valves. Pressure switches, hot water and steam valves, fire suppression valves.

Analytical Process Solutions

Honeywell

Honeywell Analytics... High Performance Gas Detection Systems

Toxic, flammable and combustible gas detection. Catalytic, electrochemical (Sure Cell™), infrared and open path technology. www.honeywellanalytics.com

Honeywell

Honeywell Corrosion... Real-Time Corrosion detection

Honeywell SmartCET transmitter provides online, real-time, corrosion information giving operators equipment reliability, availability, and integrity. Solutions include engineering services and software for your corrosion application.

Honeywell

Honeywell... Analytical Division

Industrial grade analytical instrumentation for pH/ORP, conductivity, dissolved oxygen, dewpoint and hydrogen purity. The UDA2182 full function analyzer/controller to the compact and easy to use DirectLine transmitters offering a full line for all of your analytical requirements

Wireless Process Solutions

Honeywell

Honeywell... Wireless Transmitters

Process control transmitters for monitoring remote applications, low speed monitoring, and process measurement points that are too costly to instrument or wire. XYR 5000 family includes devices for accurately monitoring gauge pressure, absolute pressure, temperature, analog inputs and ultrasonic noise.

ELPRO

ELPRO Technologies... Wireless Solutions for Industry

Industrial wireless products provide secure and reliable solutions for a wide range of industries and applications. Our products fall into three groups: Wireless I/O, Wireless Modems, and Wireless Gateways.
